14		<b>h&gt;<u>About this course</u>/h1&gt;/b&gt;</b>
15	-	
16		<div lang="en" tabindex="0">You might have questions about why you are taking this course and what you will learn. We have answered some of these questions here; starting with the purpose of this course.</div>
		 br/>
17		<div lang="en" tabindex="0">This course exists to ensure that all staff members are aware of the Group's risk management approach and how it relates to the overall strategy of the Bank, their</div>
		responsibilities with respect to risk management at the Bank, the need to promote a healthy risk culture whereby all staff are able to self-identify and self-assess risks, and act promptly. And finally, the
		need to ensure that risk assessments and conversations are joined up across all risk areas, vis-à-vis a <u>siloed</u> approach. br/>
18		<pre><div lang="en" tabindex="0">Why is this course relevant to you?</div> br/&gt;</pre>
19		<div lang="en" tabindex="0">Risk is inherent in everything we do at the Bank and therefore all staff must complete this course to understand what their responsibilities are with respect to managing risk in</div>
		their day to day business activities. Risk is to be managed by the front line or business, with oversight from Risk and Compliance and other control functions. 
20		<pre><div lang="en" tabindex="0">The course provides an overall introduction to key risk processes and clarifies the key roles and responsibilities for the Front Line/Business (what we refer to as the 1st Line)</div></pre>
		of Defence) and for the Risk and Compliance and other control functions (what we refer to as the 2nd Line of Defence). br/>
21		<pre><div lang="en" tabindex="0">Can't this course be customised for different roles?</div>  </pre>
22		<pre><dlv lang="en" tabindex="0">As a start, it is important that all staff nave the same level of understanding with respect to the Enterprise Risk Management Framework and the associated</dlv></pre>
		activities/responsibilities. For future training, we may consider providing more targeted modular training specific to different types of roles.
23		<pre><dlv lang="en" tabindex="0">Why does the course have so many acronyms? It seems too technical.</dlv> br/&gt;</pre>
24		<pre><div lang="en" tabindex="U">in order to embed a healthy risk culture, it is important that we all speak a common risk language. Accomyms help with this. We acknowledge there are a lot of accomyms and it may</div></pre>
		be difficult recalling this information. To try and help you havigate the acronyms, we have provided a list of key acronyms below. This will also help embed consistent language in risk related assessments
25		and conversations.
